Library Sequences are provided to Buyer solely to enhance their research using the siRNA Products provided by Dharmacon. "Library Sequences" means the Dharmacon-provided CD or electronic file containing the sequences of the Whole Genome Human or Mouse siRNA Library. The Library Sequences are provided "as-is" with no warranty. Buyer will use the Library Sequences solely for the following purposes: (i) data analysis; (ii) screen annotation; (iii) hit follow up; (iv) hit stratification (v) off-target predictions, (vi) design of mismatch controls and (vii) other similar research purposes (the "Purpose"). Buyer will not (a) use the Library Sequences for any commercial or other purpose not stated above or (b) attempt to reverse engineer the algorithm used to generate the sequences. Buyer may copy the CD or electronic file on to no more than three (3) Buyer computers (with restricted or password access). In cases where analytical tools are only available on a server, the sequences may be copied to that server if it is password protected and not otherwise accessible to the broad institute members or general public. In all other cases, the Library Sequences may not be stored on a Buyer server or intranet that lacks password protection. Buyer may not transfer the CD or disclose the Library Sequences (or any subset thereof), or information based on whole sequence set analysis to the public generally or to any third party without Dharmacon's prior written consent. Buyer may: (x) publish up to 200 gene sequences, identified in a screening, per journal publication, with prior notice to Dharmacon (but approval will be granted automatically); (y) share the Library Sequences with a bona fide academic research collaborator after Buyer has provided Dharmacon with details about the purpose of the collaboration and collaborator, and after Buyer has obtained Dharmacon's permission for the transfer, provided that Buyer agrees to transmit the Agreement, including these Additional Terms to such collaborator prior to disclosing Library Sequences; (z) disclose information that is related to the annotation process, summary information about the Library Sequences or hit analyses derived from annotation of the Library Sequences that does not rely on an examination of the specific siRNA duplexes or SMARTpool reagents that comprise the Library Sequences. Buyer will inform Dharmacon in writing of any new inventions related to the Library Sequences based on sequence data analysis of a bioinformatics nature (i.e., not related to hits or new genes). The Buyer and its staff conducting research with the Library Sequences will communicate the permitted uses, restrictions on use and restrictions on transfer or disclosure to his or her research team, including graduate students, post-doctoral fellows, and guest researchers.

Buyer may create vectors or plasmids into which they have cloned DNA, which codes for siRNA Product(s), to allow for *in vivo* expression of such siRNA Product(s) solely for their internal research use, but Buyer may not distribute such plasmid or vectors to any third parties. Notwithstanding any representation to the contrary by any employee, agent, affiliate or distributor of Dharmacon, Dharmacon expressly denies any and all warranties related to the siRNA Product if Buyer uses them in vectors or plasmids.

Dharmacon has the following licenses covering one or more of the Products which are or include siRNA: (i) a co-exclusive license from The Massachusetts Institute of Technology ("MIT") under US Patents 7,056,704 and 7,078,196 and various U.S. Patent Applications, European Patent Applications and PCT Patent Applications for Buyers' research use only; (ii) a non-exclusive license from The Carnegie Institution of Washington ("Carnegie") under US Patent 6,506,559 and related foreign counterparts to make, use and sell the Products provided hereunder for non-commercial, internal research purposes only; (iii) a non-exclusive license from Isis Pharmaceuticals Inc. ("Isis") under U.S. Patents 5,670,633, 6,005,087, 5,670,633, 6,005,087 and 6,476,205 to make, use sell, distribute and export certain chemical modifications that may be present on the Products, which may be used by Buyer solely for research use (including internal gene function, gene expression and target validation research) in accordance with these Additional Terms; (iv) a non-exclusive license under European Patents 1144623 B1, 1214945 B1 and foreign equivalents from Alnylam Pharmaceuticals, Inc., ("Alnylam") for use only in academic and commercial research whose purpose is to elucidate gene function, including research to validate potential gene products and pathways for drug discovery and development and to screen non-siRNA-based compounds (but excluding the evaluation or characterization of this Product as the potential basis for a siRNA-based drug) and not for any other commercial purposes. Information about licenses for commercial use (including discovery and development of siRNA-based drugs) is available by contacting Alnylam at 300 Third Street, Cambridge, MA 02142, USA.

Dharmacon's Licenses from MIT, Isis, Alnylam, Epoch and Applera confer upon the Buyer limited and restricted rights to use the Products in accordance with the terms set forth in these Additional Terms or in the applicable Product instruction sheet, and in the Agreement generally. It is the responsibility of Buyer to familiarize with the provided patent, license and intellectual property information. Buyer is encouraged to contact licensors from the provided list if the contemplated use of the Products is in any way outside of the express limited license terms, particularly if use is of a therapeutic nature. Buyer's use of some Products may necessitate the procurement of a separate license from third parties. Buyer will be fully responsible for determining whether and from which third party it requires any such license and for the procurement of such license. Except as provided expressly herein, no license to any Dharmacon technology, intellectual property or know-how, is conveyed or implied as a result of the provision of any Products to Buyer hereunder. AGREEMENT IN GOOD FAITH CONCERNING USE AND DISTRIBUTION OF ARRAYED I.M.A.G.E. cDNA CLONES

You are being provided with I.M.A.G.E. Consortium [LLNL] cDNA clones (CLONES) and/or associated Products (PRODUCTS) (referred to collectively as IMAGE MATERIALS), in order to advance the public interest and to advance the objectives of the institutions that developed the original libraries from which these clones were derived (ORIGINATORS). The ORIGINATORS are the beneficiaries of, and may independently enforce, this Agreement.

DEFINITIONS

PROGENY means an unmodified descendant from CLONES or any comparable bacterial stock derived from CLONES (STOCK). DERIVATIVE PRODUCTS means any modification or Product of CLONES or PRODUCTS that is not a PROGENY or a STOCK. PRODUCTS mean any material(s), such as subclone(s), which contain or incorporate the CLONES and are derived directly from the original CLONES or their PROGENY.

USE OF IMAGE MATERIALS

By accepting IMAGE MATERIALS you are agreeing in good faith to the following terms. If you are unable to agree to these terms, you must immediately return IMAGE MATERIALS along with all copies and replicas thereof.

- (a) You will use the IMAGE MATERIALS in compliance with all applicable laws, governmental regulations and guidelines, including the United States National Institutes of Health guidelines, or their equivalent, and any regulations or guidelines pertaining to research with humans, or animals, or with recombinant DNA.
- (b) You may use CLONES to produce PROGENY, and to create DERIVATIVE PRODUCTS. You may use IMAGE MATERIALS, PROGENY, and DERIVATIVE PRODUCTS for commercial or non-commercial purposes, except for the purpose of redistribution of CLONES or PROGENY. Accordingly, you may transfer CLONES or PROGENY to additional parties only if 1) this document in its entirety accompanies CLONES or PROGENY, and 2) you transfer CLONES or PROGENY at no cost to such additional parties.
- (c) You will include the unique and specific identifier of each arrayed clone (which was initially assigned either by Lawrence Livermore National Laboratories (IMAGE Consortium), and which accompanies the IMAGE MATERIALS) in data pertaining to the IMAGE MATERIALS submitted to public databases and in resulting publications. This nomenclature consists of the term "IMAGE Clone ID" followed by a five to seven digit number. You will refer publicly (including but not limited to electronic and print versions of articles and databases) to these arrayed cDNA clones as the "I.M.A.G.E. Consortium [LLNL] cDNA Clones", and will reference the following publication: "The I.M.A.G.E. Consortium: An Integrated Molecular Analysis of Genomes and their Expression," Lennon, G.G., Auffray, C., Polymeropoulos, M., and Soares, M.B. [1996] Genomics 33, pgs. 151-152. In INTERNET/World Wide Web publications and databases, you agree to provide electronic referencing (e.g. 'anchors' and/or 'hotlinks') to the I.M.A.G.E. Consortium home page, currently located at URL <http://image.llnl.gov>.
- (d) YOU AGREE THAT THE IMAGE MATERIALS ARE EXPERIMENTAL IN NATURE AND ARE BEING PROVIDED WITHOUT WARRANTY, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR FREEDOM FROM INFRINGEMENT OF ANY PATENT OR OTHER PROPRIETARY RIGHT OF A THIRD PARTY.
- (e) YOU AGREE TO HOLD HARMLESS AND INDEMNIFY LAWRENCE LIVERMORE NATIONAL LABORATORIES (IMAGE CONSORTIUM), THE DEPARTMENT OF ENERGY, THE U.S. GOVERNMENT, THE ORIGINATORS OF THE LIBRARY FROM WHICH CLONES WERE ARRAYED, THE PROVIDER OF THE IMAGE MATERIALS AND PERSONS ACTING ON THEIR BEHALF, FOR ANY CLAIM ASSERTED BY A THIRD PARTY RELATED TO YOUR POSSESSION, USE, STORAGE, OR DISPOSAL OF THE IMAGE MATERIALS.
- (f) You understand that the ownership of the unarrayed cDNA libraries from which clones were arrayed is retained by the Originators of those libraries. Any new patentable developments or inventions first made by any party using the arrayed clones will remain the property of the inventing party. This Agreement does not constitute the Originators waiver of any patent rights.
